I have long exect this vocation from a love of it. I have desired to be a "gentleman farmer." but a farmer in the two king sense of the term. That is, I never ask as to do on my farm what I would not do myself: I find that is this sphere I am most contented and yy. ment at the Academy of Music to-day. The matinee to miss the opportunity of being bewildered by the eleverest negromancer of modern times.

The Ravels give the first of a series of matinee performances at Niblo's Garden to-day, commence ing at 2 o'clock. 'The bill includes three pieces.

A necromantic fmatinee entertainment will be given to-day by Signor Blitz, jr., at his hall of magic on Broadway, commencing at 2 o'clock.

"Sadak and Kalassade" will be represented at Barnum's Museum this afternoon and evening.

At the Broadway Theater Mr. Boothroyd Fairelough makes his first appearance to-day. He will enact Cardinal Richlieu, in Bulwer's drama, at a matinee, beginning at 1 o'clock, and again in the evening. Madame Celeste will make her first appearance at this theater on Monday evening next, in "The Woman in Red." London papers spenk in terms of cordial praise of her acting in this comedy.

The engagement of Mr. and Mrs. Kean at the Broadway Theater closed last evening. The occasion mingled pleasure with regret. The play represented was "Richard the Third," which does not show Mr. Zean to the best advantage. The audience was appreclative and cordial; and the farewells were duly and warmly expressed. Mr. and Mrs. Kean commence an engagement at the Boston Theater, on Monday next, and another in Philadelphia, on the 11th of October. Their stay in this country, however, will be but brief.

The course of true fun never did run smoother than it now does at the Winter Garden and the Olympic. Mr. Clarke appears nightly, at the former theater, as De Boots and as Toodles, and at the latter, the aightly entertainment is still "Pocahontas."

'The Serf" will be represented for the third time to-night, at Wallack's. Few plays have ever been more thoroughly sifted by criticism than this one. The general opinion in reference to its merits and its prospeets coincides with our own. It will have a short run though a pleasant one.

A NORTH-AMERICAN LLOYD .- A proposition for a new steamship line between New-York and Bremen has been made to New-York shippers-Bremen, only second to Liverpool, and far less competed for, is the great depot of German emigration, and is at the head of German commerce in fancy and dry goods, tobacco, and cotton. Large numbers of German and Swiss who now reach New-York by way of Liverpool, would make their journey direct from Bremen the moment a competing line of steamships can alternate with the German Lloyd. The net profit of 22 trips of this line amounted to 390,225 louis or thalers, or, in other words, \$22,500 net per trip, so that an the score of profit a new line will have a golden show of encouragement. An opportunity now offers to obtain two good vessels for \$250,000 each, or one half the cost of the new Lloyd steamers. Assurances facilitating purchases have already been given, and the Ruger Brothers from whom the proposition comes, proence operations as soon as the subscriptions to a joint stock company reach \$400,000.

THIRD MASSACHUSETTS HEAVY ARTILLERY. THERD MASSACHUSETTS HEAVY ARTHLERY.

The 3d Massachusetts Heavy Artillery, numbering shout 1,000 men, under command of Col. W. S. Abert, Captain of the 6th United States Cavalry, arrived in this city from Washington on Thurstannight, and was quartered at the Battery Barracks for the night, and left here early yestenday afternoon by transport for Galiup's Island. Boston Harbor. The 3d was organized as a regiment about a year since, and has been stationed in the defense around Washington, and, consequently, had had no opportunity to engage in battle. The officers, however, as well as many of the privates, are veterans, and have seen much service in privates, are veterans, and have seen much service other organizations. The following is a partial list of officers: Colonel, W. S. Abert; Lieut. Colonel, J. A. P. Allen; Majors, L. B. Whiton, — Richardson; Quartermaster, Lieut. Bragdon; Adjustant, Lieut. Osgood; Surgeon, William Nichols; Capts. Richardson, Ball, Dives, Driscoll, Brigam and Russell.

AND TWENTY-FOUR MINUTES AHEAD OF Has WINOOSKI-EXCITING TIMES, &C., &C.

Owing to the fact that the wood used for starting the fires had to be passed up from the fire-rooms of the respective vessels, yesterday morning, to be weighed, it was not until a little over two hours after the time set that the fires were lit. From 7 o'clock until the moment the match was applied, tas scene on the door, as well as on least the yessels was of the live-

dock, as well as on board the vessels, was of the live-liest interest.

The clear weather and invigorating westerly breeze seemed to place all hands in the best possible humor and spirits. Mr. Dickerson, Chief Engineers Danby, Kellogg, Sprague and Phythian were on hand early and engaged themselves in spinning yarns while the wood was being passed up and weighed. Sixteen wheelbarrow loads made up the hour's attendance of coal which was wheeled on board of each vessel. Shortly after 9 o'clock the firemen began to "wood up" and prepare for the context. Before starting the engineers of each vessel were served with a copy of the following document, emanating from the Board of Experts:

pounds; consumption of coals, about 1.300 pounds per hour. Winooski, 17 revolutions per minute, steam, 24 pounds; consumption of cost, 1.100 pounds per hour. The five-hour test ended about 4 o'clock.
